iClean International

iClean International is based in Venray, the Netherlands. Our roots go back 100 years: the basis of our company was founded in 1919 in Rotterdam, the Netherlands (Saarloos Automotive Equipment B.V.).

iClean Carwash Technologies has 50 years of experience in car wash technology and dealing with water and waste water in particular. iClean Carwash Technologies is the marketleader in full biological water reclaim systems. We have been offering our famous stainless steel products for export for several decades. Ten years ago, we expanded our product range with the iClean Dog Wash, which became the global Dog Wash standard.

In our new state-of-the-art facility, opened in 2006, we have everything under one roof:

Saarloos Automotive Equipment B.V.	www.saarloos.com
iClean Carwash Technologies B.V.	www.iclean.nl
iClean International B.V.	www.icleandogwash.com

Following significant production growth the last few years iClean International has committed to the long-term future by expanding their operations.

In the beginning of 2019 iClean International increased their production capacity by the opening of a second manufacturing facility for the production and assembly of Dog Wash units.

Mission & Values

1 Quality

We create excellent products for our customers by carefully listening to their needs and exceeding their expectations.

2 We strive for continuous improvement

We are an organization that aims to anticipate and respond to changing customer needs through constant evolution and innovation.

3 Customer Focus

Our customers are the reason for our existence. We demonstrate our appreciation by providing them with high-quality products and superior service. Our goal is to offer the best quality and service to each and every customer, each and every time.

iClean Dog Wash

The iClean Dog Wash is an offspring of the original Dog Wash, of which hundreds are already operating worldwide. iClean International has improved and redesigned the original Dog Wash and updated it with car wash-quality components and a MEGA 22-inch touchscreen with a lot of extra functionalities. The clever concept, stylish finish and easy operation make the iClean Dog Wash a great investment. The iClean Dog Wash is engineered and designed for durability and an optimal user experience. The iClean Dog Wash is built using the best components available. No concessions are made. We can proudly say that the iClean Dog Wash is the most advanced Dog Wash in the world!

The iClean Dog Wash -> *THE* extra revenue generator for your pet store, veterinary clinic, dog grooming business, garden center, car wash, gas station, multi-family community, laundromat, garden center, military base, travel center, RV park, dog beach, campground and so many other facilities.

CLASSIC PRO

Dog Wash Classic PRO

The original Dog Wash, evolved. The iconic, refined.
Even a Dog Wash that defied definition is destined to explore new boundaries and find new frontiers for expression.
The all-new **iClean Dog Wash Classic PRO** has arrived.
Advanced, in ways previously inconceivable. A presence, that comes with prestige. Drawing our heritage and our destiny into the present.

"The original Dog Wash, evolved. The iconic, refined."

XL

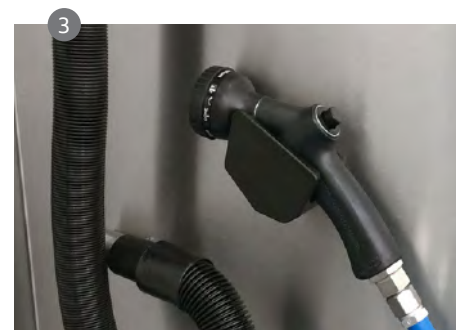

Dog Wash XL

iClean International anticipates and responds to changing customer needs through constant evolution and innovation. While the iClean Dog Wash Classic is already the most advanced dog wash in the world, we got a request from the market to develop a new Dog Wash model that gives the biggest dogs more space and has a plateau that allows the dog to turn more easily to improve the washing experience. We put our engineers to work and can now proudly present the **iClean Dog Wash XL**.

We increased the plateau size by 11.8" (30 cm) x 3.9" (10 cm). We took this opportunity to change the overall shape of the Dog Wash machine standard. We added elegant round shapes and a round bathtub window. We mounted multicolor LED panels behind the logos, which we cut out of stainless steel (customizable). When you consider the attention to detail and luxurious touches found all over this machine, it becomes even more enticing.

"When the right materials strike the perfect chord"

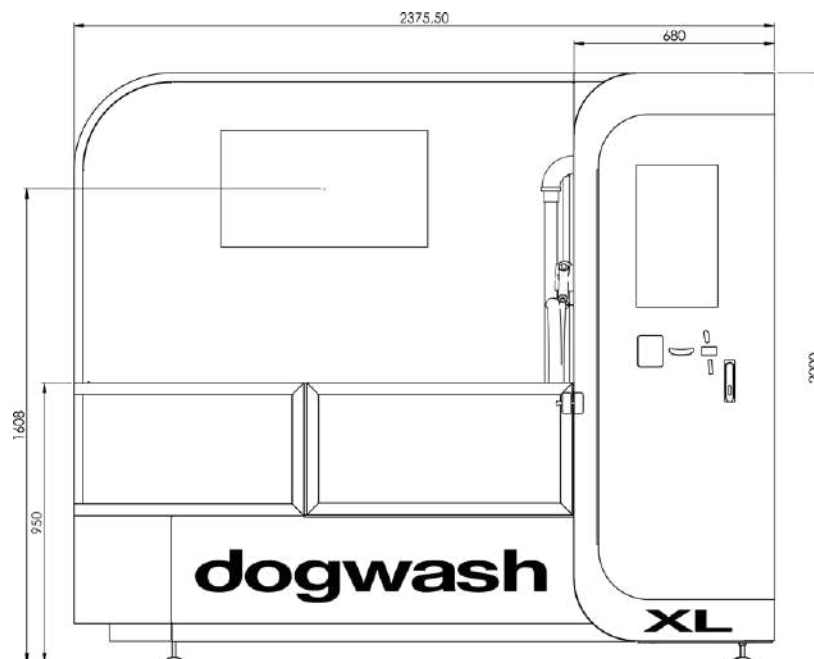

Details Dog Wash XL

- 1 Customizable multicolor LED panel with remote control
- 2 Easy access height plateau
- 3 iClean wash gun + hair dryer hose
- 4 New design robust chain connection

FUTURA

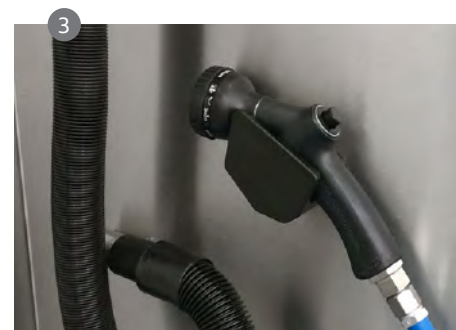

Dog Wash Futura

The all-new **iClean Dog Wash Futura** leaves you with a first impression that is impossible to forget. The Futura has the same big plateau as the XL, which allows the dog to turn more easily and improves the washing experience. The design of the Futura goes far beyond its electric exterior. In so many ways, it is really all connected. Engineering and designing an iClean Dog Wash is not simply a matter of physics or architecture; it is a systematic compilation of disparate disciplines and ideas, forged into something iconic and sophisticated. The Futura is a symbol of everything an iClean Dog Wash stands for and a reminder that iClean is blazing a new trail. The Futura is a dream machine any way you look at it.

“Virtually the new Dog Wash reality”

CUBE

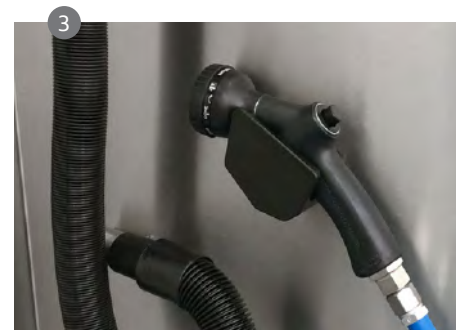

Dog Wash Cube

If the Futura is too wild and progressive for you and you prefer a machine with a more symmetrical design, the **iClean Dog Wash Cube** is the machine of your choice. The Cube has the same big plateau as the XL and the Futura, which allows the dog to turn more easily and improves the washing experience. The iClean Dog Wash Cube is more than just beautifully sculpted sheet metal and timeless design elements paying tribute to the previous Dog Wash generation; every design element serves a specific function to help ensure you are getting the most out of this great machine.

Experience a Dog Wash in a new way with enhanced design and cutting-edge technology with the all-new iClean Dog Wash Cube (and the XL and Futura).

PREMIUM LINE

iClean Dog Wash

spa

Dog Wash Spa

A big pet store chain from the United Kingdom approached us with the request to incorporate our premium quality Dog Wash technology in a new Dog Wash model with a luxurious look and feel. At iClean Dog Wash customer is king! So we put our engineers to work.

We equipped the new iClean Dog Wash Spa with a Spa style panel designs and wooden steps made of Bangkirai rainforest trees. We offer various wood, stone & tile designs to customize the Dog Wash unit. If you want us to apply a special color that is a possibility too. iClean Dog Wash Spa: The ultimate Spa experience!

Mobile app*

We have developed an app for our customers. With this app, you can log in to your Dog Wash machine(s) from anywhere and access real-time statistics.

- 1 **WASHES** You can see how many people washed their dogs (day / week / month / year)
- 2 **TURNOVER** The amount of money received (day / week / month / year)
- 3 **PAYMENTS** How much money is in the machine at this moment (real time!)
- 4 **STOCKS** Is a wash product reservoir almost empty? (You will receive an email)
- 5 **LOGS** Access the entire history of various actions (date / time of wash / payment / stock)

* Available for Touchscreen model.
(Not compatible with Push Button model)

Payment systems

Coin & token validator

This coin validator has set new reference standards in coin validation. With five different sensors and ten recognition parameters, it ensures a high level of recognition and discrimination of valid and counterfeit coins. With the coin validator, the customer can pay with coins and tokens. We can configure the coin validator to accept any currency.

Banknote reader

The banknote reader is easy to use. It guarantees a high acceptance level for banknotes. The note transport and note guidance technology has been improved and can recognize any attempts at fraud. With the banknote reader, the customer can pay with banknotes. We can configure the banknote reader to accept any currency.

NAYAX payment terminal

VPOS Touch is Nayax's all-in-one contactless, contact & swipe card reader. Give your customers the flexibility to pay any way they choose, with the convenience of a 24/7 unattended, automated operation.

Features:

- Hi-res touch screen
- Built-in scanner
- Voice Interaction
- Technician mode

Accepts all forms of cashless payment:

- Debit and Credit Cards
- Swipe, Contact or Contactless
- Mobile, SMS and NFC Payments
- Prepaid cards
- Supports Apple Pay, Android Pay, Google Wallet, Alipay and WeChatPay

Winner of the Vending Star award

32-inch FULL HD LED TV

We offer the option to build a 32-inch FULL HD LED TV into the back wall of your Dog Wash. This is a perfect marketing tool. You can play videos via the operating system / touchscreen computer. The Dog Wash comes with a media USB stick with a screensaver animation in the language of your choice. You can also use the TV for advertising and cross-selling purposes. The Dog Wash is used for cross-selling in most locations where it is installed (for example: car washes, gas stations, pet shops, veterinary clinics, garden centers or holiday resorts).

The great thing about the TV option is that we developed an overlay that is displayed on top of the videos. This allows the customer to see relevant information while washing.

The overlay shows:

- Selected program
- Total time left
- Wash instruction

Electric water heater

If no central water heater is available within a 10-meter radius, a water heater must be installed at the bottom of the Dog Wash cabinet. The close-in water heater has a big tank with a volume of 50 liters. This provides enough hot water for peak periods.

Insulation cabinet and air heater

This option is needed when the iClean Dog Wash is placed outside in countries with harsh winter conditions (frost protection). The technical cabinet will be insulated and a spiral heater will be installed to keep the system above freezing point.

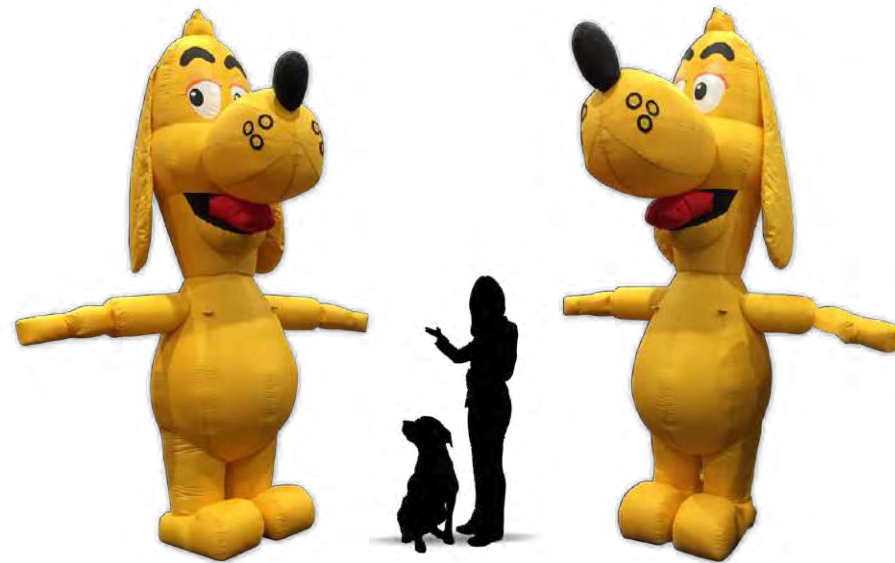

Inflatable dog and Dog Wash LED sign

Inflatable dog

We have developed an inflatable dog for marketing / advertising purposes for your Dog Wash facility. This inflatable dog is ideal to place in front of your company / store or next to the Dog Wash machine to get extra attention from customers.

- Dimensions:
Length 39.4" (100 cm)
Height 137.8" (350 cm)
Depth 39.4" (100 cm)

Dog Wash LED sign

To attract additional customers, we offer a Dog Wash LED sign. This LED sign gives your Dog Wash facility a professional and state-of-the-art appearance.

- Dimensions:
Length 81.1" (206 cm)
Height 13.7" (35 cm)
Depth 2.75" (7 cm)

Dog Wash Roof

Sometimes it is not possible to put the Dog Wash inside. We can mount a stainless steel roof with polycarbonate plates on top of the Dog Wash. This will protect customers if they want to wash their dogs during rainy weather.

Worldwide

We have installed 2500+ Dog Wash machines worldwide.
If you are interested in becoming a distributor, please contact us.

**The Dog Wash business is booming!
Be a part of it!**

LE SALON

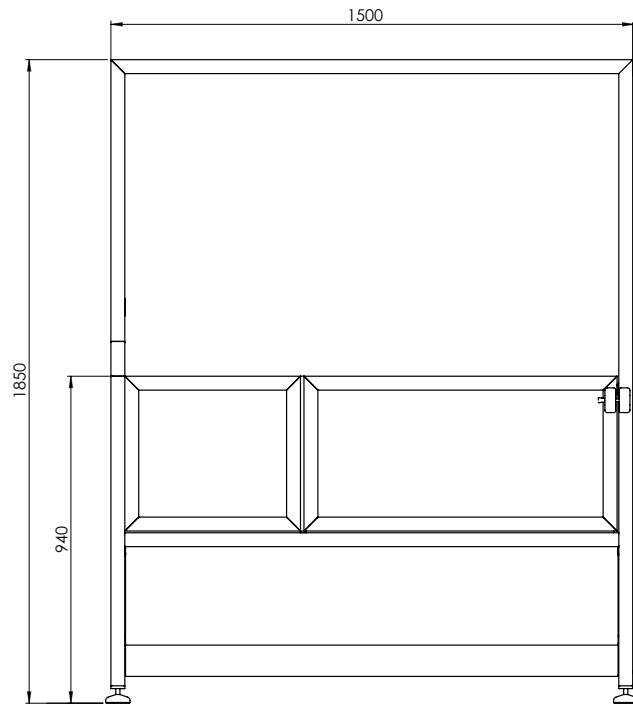

Dog Wash Le Salon Washtub Standard

The **iClean Dog Wash grooming products** are the best in the market. Made of 304B aircraft-grade stainless steel and with the highend quality finish that iClean is known for worldwide. Bathing dogs is easier with the iClean washtubs. The washtub features the same tube frame as our Dog Wash models, a one piece-backsplash and adjustable feet; making it sturdy whether it's free-standing in a room or placed against a wall. The 'Le Salon' washtub models are built to last a lifetime.

The perfect washtub for your grooming salon!

Custom design

Our company has its own design department.
Our designers are happy to make an unique custom design for you.
We can create decals / stickers for your machine in your company's colors and corporate style. The sky is the limit!

For more custom designs please visit our website:
www.icleandogwash.com

Project Pets at Home

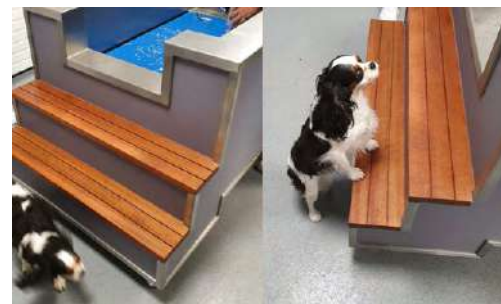

Last year iClean International and Pets at Home worked together on a new Dog Self Wash project. iClean Dog Wash designed a custom Pets at Home 'Tower' with an 11 inch touchscreen, coin & token validator and Nayax payment terminal (mobile phone and credit card payments). We also developed new software with custom audio instructions, user interface, screensaver & instruction video. It was a great experience to be part of the Dog Self Wash project. It was a delight to work with a professional and well organized company as Pets at Home. The end result looks amazing!

Project Jollyes

Last year we developed the new Dog Wash 'Spa' for the 'New store concept' of Jollyes. iClean Dog Wash designed a custom Jollyes Dog Wash 'Spa' unit with illuminated push buttons, coin & token validator, banknote reader and Nayax payment terminal (mobile phone and credit card payments), wooden steps made from Bangkirai rainforest trees and custom Spa style panels. It was a great experience to be part of the Jollyes Dog Wash 'Spa' project.

iClean Family

The Dog Wash business has grown enormously the last few years and the iClean Dog Wash has been approved by major retail chains after extensive testing periods. Underneath some pictures of recent installations.
